WHY CHOOSE FACTORY AUTHORIZED PARTS™?

If you're looking for the fastest, easiest way to repair your customers' Carrier®, Toshiba® and Apac® equipment, you should know that Factory Authorized Parts are always the right choice.

When you choose to install a Factory Authorized Part, you'll not only find an exact, drop-in replacement, but you'll also find an option that maintains original OEM efficiency – that means less time on the job for you, and a better solution for your customer.

FACTORY AUTHORIZED PARTS PROVIDE REAL BENEFITS TO BOTH YOU AND YOUR CUSTOMERS

FOR THE TECHNICIAN

One of the primary benefit of Factory Authorized Parts is the timesaving they offer. Products such as gas valves, lengths, electrical connections and mounting characteristics are all exact, which makes your job easier, and provides a real benefit to your customers as well. When you use Factory Authorized Parts in your customers' equipment, you maintain the manufacturer's warranty, the original system efficiency, and engineered sound requirements.

FOR THE OWNER

If you have either Carrier®, Toshiba® or Apac® equipment installed in your premises, be sure to ask your technician to use Factory Authorized Parts whenever they make repairs on your heating or cooling equipment. That way, you'll know the parts being used have been specifically designed and built for your equipment. They provide the perfect fit, and restore your equipment to its original performance.

So take care of your customer's Carrier®, Toshiba® and Apac® equipment the right way – choose Factory Authorized Parts every time you need to make a repair. To learn more about our complete line-up of Factory Authorized Parts, visit us online at www.totaline.com.au, or stop into one of our Totaline Branches. There, our friendly counter staff will be more than happy to help you with your Factory Authorized Parts needs, and much more.

EXV circuit board	32GB500422EE
AUX1 Board	32GB500442EE
Transformer	JBKZ100VA400V/230V
Transformer	JBK3Z160VA400/24V

Suggested Critical Stock: **38ADP** Air Cooled Condensing Unit

Turn to the Experts

Complete Model Number: _____

Serial Number: _____

DESCRIPTION	ITEM NUMBER
Outside Air Temperature	30GB660002
Suction Pressure Transducer A	HK05SZ003
Discharge Pressure Transducer A	HK05ZZ001S
Discharge Pressure Switch A	HK02ZZ001S
Motor (Outdoor Fan Motor)	HD52AR461S
Propeller, Fan blade	LA01EW052
flying bird fan blade Series 4 Cap	00PSG000000200A
Digital Compressor Solenoid Coil	EF19ZZ135
Digital Compressor Temperature Sensor	HH79EZ003
Accumulator	KH71ZN240
Condenser Coil	38AP400943
Condenser Coil enviroshield Coated	38AP400943C
Crankcase Heater, all compressors	HT32BH944
Control Board , MBB	38AP501672
Control Board , LVT	48HG500382
Control Board , AUX2 DIGITAL COMPRESSOR	32GB500432E
Control Board , CSB	HK50AA035S
Control Board , EMM	30GT515218
Standard Tier Display Unit (STDU)	HK50AA031S
Transformer 1 low voltage	B200R7XK
Contactora (OFC)	HN53CD024
Compressor Circuit Breaker Circuit A	HH83XB425
CompressorContactora	HN53CD024

Suggested Critical Stock: **38RBS** **Air Cooled Condensing Unit**
